Documentary New Leaders

DOC NYC's Documentary New Leaders initiative honors individuals whose efforts and fresh thinking on distribution, sales, festivals, and marketing bring greater inclusion and equity to the field. "We are deeply inspired by the vision and hard work of these 18 Documentary New Leaders," said Malikkah Rollins, DOC NYC Director of Industry and Education, who served on the selection committee. "We look forward to spending the next year helping them develop their industry networks and watching their careers grow."

The list of 18 recipients draws from 12 cities--including New York, London, Los Angeles, Chicago and others--and reflects the honorees' broad range of experiences, including roles in funding, journalism, grassroots organizing, distribution and film festivals. DOC NYC x Video Consortium Storytelling Incubator

The DOC NYC x VC Storytelling Incubator, a new initiative from DOC NYC and the Video Consortium, provides emerging documentary filmmakers with underrepresented perspectives with hands-on creative consultation and professional guidance from established industry voices through a unique annual mentorship program.

Following an open call for applications, the Video Consortium's Filmmaker Advisory Council, in collaboration with DOC NYC, reviewed more than 100 promising work-in-progress documentaries from rising industry talent and selected 18 filmmakers representing 16 projects to participate as mentees in the program. Mentors, selected by DOC NYC Director of Filmmaker Development Caitlin Boyle from DOC NYC's alumni list, will provide feedback on the mentee's work-in-progress nonfiction film, offering advice and insight on story, creative process, and funding and distribution potential over the course of six meetings, including one intensive meeting. In addition to one-on-one mentorship support, the program participants engage in a series of tailored master classes, closed community discussions, and intimate happy hours during the program. The Incubator concludes in July, with a festive screening and final gathering.

"We're thrilled to partner with DOC NYC and support bringing these important and compelling long-form stories to life," said The Video Consortium founder Sky Dylan-Robbins. "Our mission is to level the industry playing field, to facilitate a more collaborative media ecosystem, and to open doors for emerging nonfiction filmmakers around the globe. The varied perspectives and geographic diversity of this inaugural cohort beautifully reflect the immense potential of the next generation shaping our field.

As Incubator participants, mentees also receive free access to DOC NYC's year-round online program of educational events; complimentary access to its 8-day professional conference, DOC NYC PRO, and waived submission fees to its Only In New York industry networking program for works-in-progress.
